DC Moore Gallery is pleased to present *On, In, Off the Grid*, a group exhibition highlighting abstract paintings, mixed media works, and works on paper by Joell Baxter, Lisa Corinne Davis, Valerie Jaudon, Alfred Jensen, Richard Kalina, Holly Miller, Stephen Mueller, Leslie Roberts, James Siena, Stanley Whitney and George Woodman.

The artists in this exhibition organize their work around constructed generative systems and methodology that explore the grid as a foundational basis for sustained inquiry and artistic expression. The shifting, twisting, morphing grids and patterns reflect investigations into spatial, optical, and conceptual dimensions. Spaces for repeated interval, motif and color can stabilize the matrix or can act as rule-breakers to forge new pathways and create variation.

This exhibition runs concurrently with *Katia Santibañez: And Yet Again*.
